A Royal Italian Collection

Indulge in the ever-so-gentle wonders of nature. Shades and patterns that connect you with your sensibilities.

Spaces that feel like the main characters

Spaces with Neo don't chase, nor wait to be chased. They exist, in their aura, calm, deep and mature, the way quiet luxury behaves.

Flamboyance keeps at bay; subtle elegance takes center stage here, and rightfully so. Here, opulence finds its composure.

Give your spaces a stature that never feels cheap or out of place, but always something people gravitate towards.

Palette of Composed Taste

Inspired by nature's mild, modest, and ever so gratifying tones, Neo draws its definition accordingly. Like walking into a space that's created to calm your senses when the world around is stimulating.

From rocks, sands, and foliage, muted tones that are just meant to pacify.

Neo plays around with tones that feel instinctively familiar, making spaces ever so comfortable to walk in.

Curated Chromatic Creations

Neo finds its form here through indulgence and creative exploration. From several designs to surfaces, from several randoms to decors, it is a purely artistic expression that's functionally sound as well.

Nature's Essence Objectified

We chose not to stop at design; these creations offer a complete experience, from visual to touch, making each tile piece worth your while.

When creation flows, we stand at the center of it all!

Diversity so loud that our graceful creations make it feel like a crafted statement, one that appeases everyone.
